

# PAHEN

## PERSPECTIVES IN ASTROPARTICLE PHYSICS FROM HIGH-ENERGY NEUTRINOS

Congress Center, Aula Magna, Via Partenope 36, Napoli  
25th and 26th September 2017

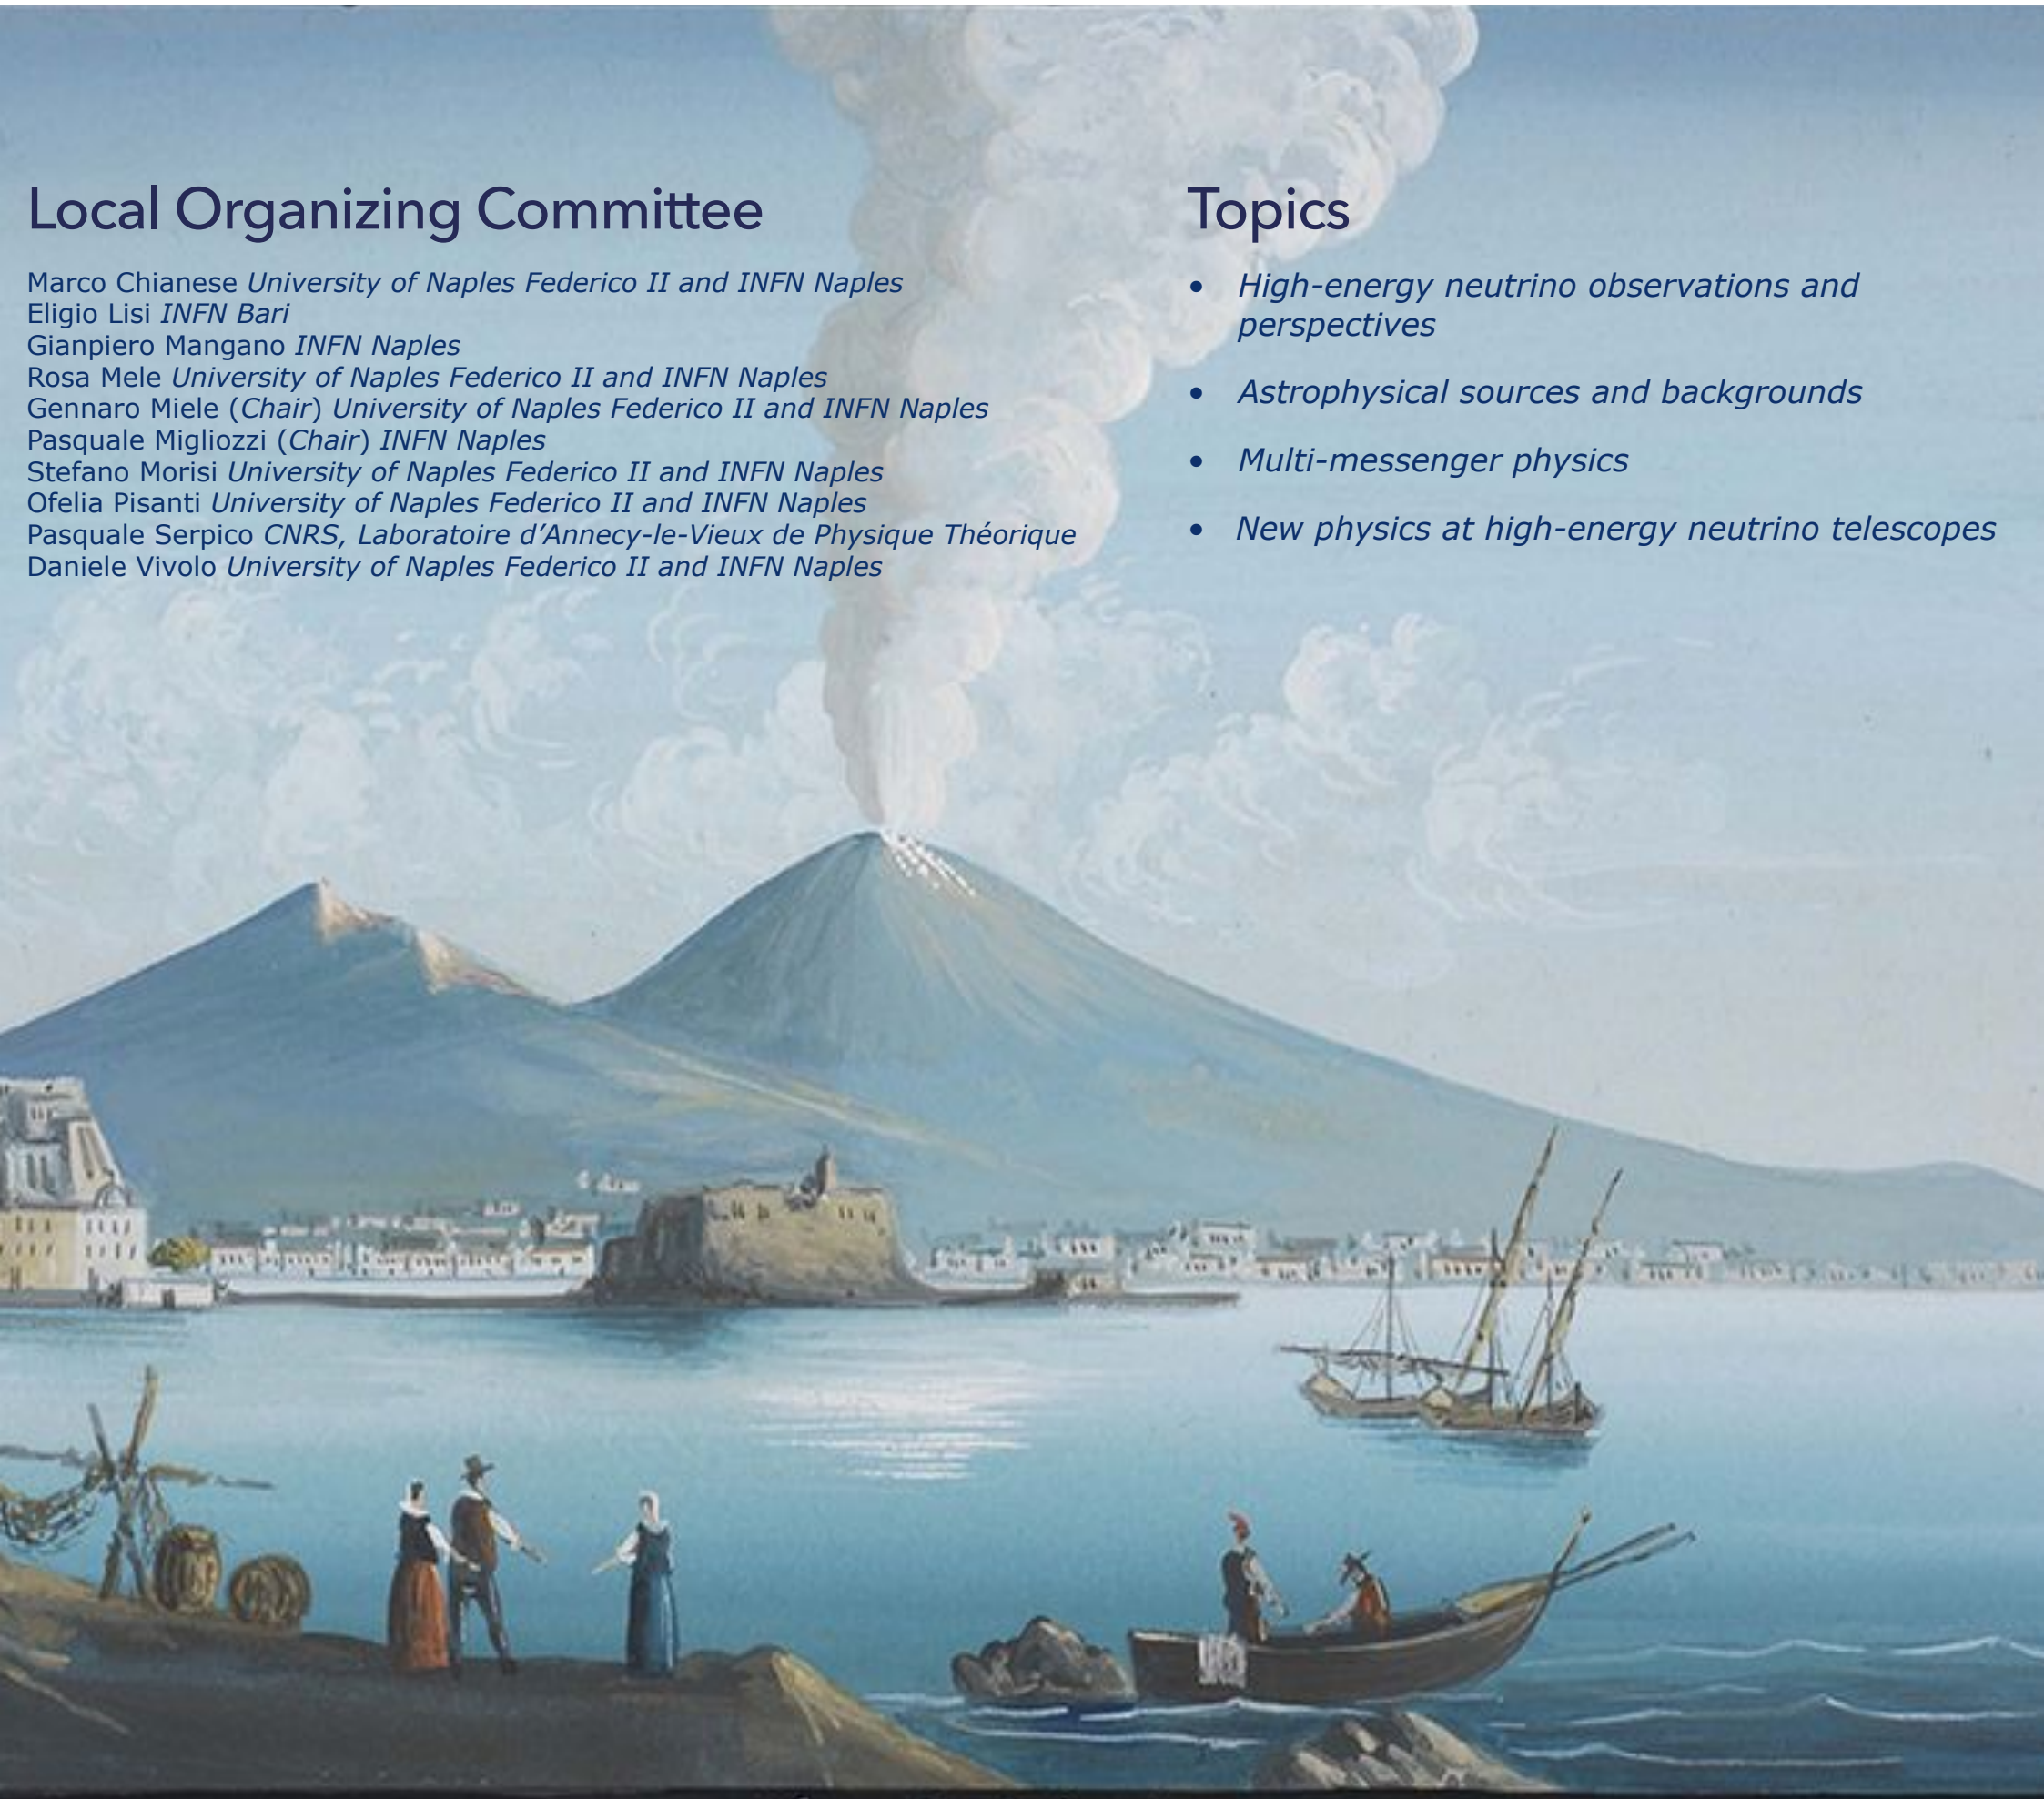

For contacts:  
pahen2017@fisica.unina.it

### Local Organizing Committee

Marco Chianese *University of Naples Federico II and INFN Naples*  
Eligio Lisi *INFN Bari*  
Gianpiero Mangano *INFN Naples*  
Rosa Mele *University of Naples Federico II and INFN Naples*  
Gennaro Miele (*Chair*) *University of Naples Federico II and INFN Naples*  
Pasquale Migliozzi (*Chair*) *INFN Naples*  
Stefano Morisi *University of Naples Federico II and INFN Naples*  
Ofelia Pisanti *University of Naples Federico II and INFN Naples*  
Pasquale Serpico *CNRS, Laboratoire d'Annecy-le-Vieux de Physique Théorique*  
Daniele Vivolo *University of Naples Federico II and INFN Naples*

### Topics

- *High-energy neutrino observations and perspectives*
- *Astrophysical sources and backgrounds*
- *Multi-messenger physics*
- *New physics at high-energy neutrino telescopes*

This workshop is co-funded by **INFN, INFN - Sezione di Napoli, University "Federico II"** and by the **Department of Physics** of University "Federico II", Naples.

Università degli Studi  
di Napoli "Federico II"  
Dipartimento di Fisica  
"E. Pancini"
